

DISPOSABLES

Case Medical, Inc.® offers a full line of disposables and other accessories designed for the SteriTite® universal container and other DIN-size sealed container systems. Disposables may be ordered for steam and gas as separate packs of 1000 each or by case including 3 packs of filters, 1 pack of tamper evident seals and 1 pack of load cards with indicators. For steam and EtO, Case Medical has an internal process indicator available.

For hydrogen peroxide sterilization, including STERRAD and V PRO, polypropylene filters “Polypro”, white tamper evident seals and load cards with indicator may be ordered in lots of 1000 or by a kit containing 3 packs of “Polypro” filters, 1 pack of white tamper evident seals and 1 pack of load cards with indicators. For SteriTite containers which are universal, both kits are required for steam and gas, as well as low temperature sterilization.

To select appropriate tamper evident seal, choose one of the following: B=Blue for Steam & EtO sterilization R=Red for immediate use sterilization W=White for Hydrogen Peroxide H2O2/STERRAD & V PRO sterilization BH=Orange for biohazard identification of used items.
