

Case Solutions include validated and environmentally friendly instrument cleaners, removers and finishing agents for each step in the decontamination process. SuperNova is a super concentrated, liquid cleaning system for medical devices available with dose control and flow control. Manufactured from the finest surfactants, synergistic enzymes and high purity RO water, Case Solutions and SuperNova cleaners are low foaming, nontoxic, free rinsing, and biodegradable.

Case Medical’s instrument chemistries have been awarded a DfE, preferred partnership, under the EPA Design for the Environment Program for safer chemistry. Case Solutions and SuperNova instrument chemistries can be used manually or in automatic washers to rapidly break down bio-burden and bio-film. Validation testing in independent laboratories demonstrated > 99.9% reduction in organic soil and 6 log reduction in bioburden. Lubricate with InstruCreme. Ready to use and highly concentrated products designed with input from healthcare professionals address the identified needs of the healthcare community.

Part #	Description
CSNC01G	Multi-Enzyme.1 Cleaner (4x1Gal)per Case
CSNC01	Multi-Enzyme.1 Cleaner (2x2.5Gal)per Case
CSNC252	Multi-Enzyme.25 Cleaner (12x2oz)per Case
CSNC25G	Multi-Enzyme.25 Cleaner (4x1Gal)per Case
CSNC25	Multi-Enzyme.25 Cleaner (2x2.5Gal)per Case
CSNB01G	Detergent NPHD.1 (4x1Gal)per Case
CSNB01	Detergent NPHD.1 (2x2.5Gal)per Case
CSNB252	Detergent NPHD.25 (12x2oz)per Case
CSNB25G	Detergent NPHD.25 (4x1Gal)per Case
CSNB25	Detergent NPHD.25 (2x2.5Gal)per Case
CSNL012	Lubricant Concentrate (12x2oz)per Case
CSNL01G	Lubricant Concentrate (4x1Gal)per Case
CSNL01	Lubricant Concentrate (2x2.5Gal)per Case
CSNCD1G	Case Dry Concentrate (4x1Gal)per Case
CSNCD1	Case Dry Concentrate (2x2.5Gal)per Case

PRODUCTS FOR DECONTAMINATION

Case Solutions® are innovative instrument chemistries for effective decontamination and cleaning of surgical instruments and medical devices. Case Solutions® are safe, environmentally friendly, hypoallergenic, natural products for each step in the decontamination process. Ready to use and concentrated products address the need for a full line of instrument chemistries specifically designed for instrument processing.

Case Solutions Penta Wipes, Alcohol Wipes and Surface Wipes are large, single use towelettes impregnated with cleaning agents that facilitate manual cleaning and decontamination of surfaces and medical devices, including sterilization containers. Simply apply to surface and discard single use wipe after each use.

After cleaning, all surgical devices must be further processed with sterilization or disinfection per manufacturer's instructions.

	Part # Description	
	CSA011 PentaPrep Multi-Enzyme Pre-Soak Foam (12x8oz)	
	CSA015 PentaPrep Multi-Enzyme Pre-Soak Foam Spray (12x24oz)	
	CSC011 PentaZyme Multi-Enzyme Cleaner Concentrate (4x1Gal)	
	CSL014 InstruCrema Lubricant Spray (12x24oz)	
	CSR011 Medical Ink & Adhesive Remover (12x2oz)	
	CSR012 Medical Ink & Adhesive Remover (12x8oz)	
	CSSTR24 Schmutzoff Descaler & Stain Remover (12x24oz)	
	CSSTR011 Schmutzoff Descaler & Stain Remover (4x1Gal)	
	CSWE001 Penta Wipes 120 Single Use Wipes (6 per case)	
	CSWA001 Alcohol Wipes 120 Single Use Wipes (6 per case)	
	CSWS001 Surface Wipes 120 Single Use Wipes (6 per case)	
	CSC011 PentaZyme Multi-Enzyme Cleaner Concentrate (4x1Gal)	
	CSL014 InstruCrema Lubricant Spray (12x24oz)
